Subject: RE: [Redacted] PP

Just talked to my supervisor. We may want to take the pieces that were ejected from the building into evidence. We have a conference time for tomorrow to talk to our legal dept.

Thank you Rick and this is to confirm that your email below is our understanding as well. PG&E will continue to ensure that any and all requests related to the [Redacted] PP site will be submitted to the CPUC for review and authorization.

Please feel free to call me at any time.

Hi Ken,

Just to formalize our talk this morning, SED intends to preserve the site's integrity to the greatest extent possible while recognizing the need for other governmental agencies to perform their duties. Thus, SED authorizes PG&E to give Cal/OSHA access to the [Redacted] site to collect shrapnel samples for tests. SED's authorization is solely for this single instance of sample collection. Should PG&E receive other requests for access to the site, SED asks that PG&E request authorization to allow access in writing. Feel free to call with questions.

Thanks,

Rick Tse

Steve,

In follow up to our discussion this morning, Rick Tse of the CPUC contacted me this morning to confirm their approval of Cal OSHA's request to collect evidence at the [Redacted] PP site located outside the structure area.

At your convenience, please contact me so that we can discuss scheduling for this event and in order for me to provide notice to all interested parties.

Thanks and please call me if you have any questions.
