Subject: Re: Are you Available for dinner or coffee on Nov. 7?

Let's do 530pm at Credo.

Brian K. Cherry  
PG&E Company  
VP, Regulatory Relations  
77 Beale Street  
San Francisco, CA. 94105  
(415) 973-4977

>> Catherine - I can make myself available between 5-6 p.m. after the en Banc. Unfortunately, Tom and I are  
previously scheduled to attend a fundraising event for Greenlining's San Kang at Credo Restaurant at 6:00 p.m.  
Sam is running for the Assembly and Tom and I committed to supporting his candidacy. I will check with Tom  
regarding his availability. Does that work for you ?

>> Tom and Brian, Are you available for dinner or coffee on Nov. 7 after the CPUC en banc? I have a meeting  
after the en banc and will be available after 5:00 pm. [Redacted] a woman-owned CPUC  
Clearinghouse certified energy solutions business, GoGreen, and CEO of LED manufacturer and designer  
Polybrite, is visiting from Chicago and she'll be at the en banc. Sandy is also presenting at the CPUC Living Pilot  
Symposium on Wednesday about her MOU with SDG&E to install battery back-up in LED streetlights to create  
dispatchable Demand Response. She also manufactures LED flat panels, tubes, and bulbs, and is working with a

storage partner [Redacted] of Exergonix based in Kansas City. Sandy served on the FCC's Small Business Advisory Committee when I was the Director of the FCC's Business Opportunities Office in the mid-late-1990's. Sandy and her dad, [Redacted] founded Polybrite and began LED manufacturing 18 years ago, and founded MCI, In-Flight Phone, the FTD Floral Network, and other businesses. [Redacted] is working with [Reda] on GoGreen and is based in and hails from Sacramento. I've also known [Redacted] since the mid-90's. [Redacted] is an engineer, Stanford grad, and former White House fellow. Please let me know if you have time for coffee or dinner on Thursday evening after the en banc. We'll pick a convenient location. Thanks, Cathy
