

California Solar Initiative : Workshops on AB 217 – MASH Program and PBI Acceleration

These upcoming CSI Program workshops are intended to provide a public venue for interested parties to identify and discuss the highest priority issues related to the California Solar Initiative. Specifically, the two items to be discussed at these workshops are: 1) proposed changes to the Performance Based Incentive (PBI) program and 2) the implementation of Assembly Bill 217 (Bradford, 2013) for the Multifamily Affordable Solar Housing (MASH) program. Your participation in person or by phone is welcome. *Please note that these workshops will not discuss the implementation of or details about the other portions of the CSI program.*

Workshop Details
