Marzia,

Attached is the typical electric bills information published in the 2013 Summer/Winter EEI reports for all three CA IOUs. Please let me know if you need me to pull additional information from these reports.

Brian C. and Brian P.,

Please look over the attached and let us know if you're okay with the information provided.

Subject favor

Hi Utilities,

I need a favor, pretty please. You can get this information from the EEI data that you each are members, but the CPUC doesn't have access to because we don't have money. Very please. can I get it by Jan 3rd. please.

I need the answer to the "XX's"

➤ •California customers on average pay XX for their monthly electricity bills and XX for their gas bills. California continues to have one of the lowest bills on average while having higher rates. The highest bills are paid by XX (name of the state) while the lowest bills are paid by XX (name of the state).
