Liza

We expect to have the leak survey report to you by 3:00 today at the latest.

We are also sending you a letter by COB today with an update of the current known facts from the site and a description of what our next steps are to test the failed pipe and conduct a root cause analysis as quickly as possible.

The letter will explain that we have retained Exponent Engineering in Menlo Park to test the pipe and that testing is expected to begin tomorrow morning. I wanted you and Willard to know this as you are welcome to attend that work at the Exponent facilities. More details to follow, but I wanted you to be aware of this aspect of the schedule so you could plan accordingly.

Thanks

Laura
