Subject: REVISED: Notification of Changes to PG&E's Gas Meter Test Equipment, per GO 58-A

Dear Brigadier General Hagan:

We have discovered a typographical error in our notification to you yesterday (12/19/13) of changes to PG&E's Meter Test Facility. The error is an equipment serial number that was repeated and which might cause some confusion.

The erroneous letter indicates that a 10-cubic foot gas meter prover, serial number 1249, has been removed, and a 20-cubic foot gas meter prover *with the same serial number* has also be removed. The correct serial number for the 20-cubic foot gas meter prover is 2853.

I apologize for the error, a corrected notification letter is attached.

Thank you for your consideration on this matter.
