Subject: Re: Fwd: UPDATE: Cold Weather Alert for Dec 5 and Dec 6

I will be happy to do that!

And how about a get together (drink)before end of year??

Subject: **FW: UPDATE: Cold Weather Alert for Dec 5 and Dec 6**

Ed and Gurbux: Temperatures are going to be quite cold over the next week or so, and it could lead to some gas curtailments of noncore customers in northern California. Temperatures would have to be even lower than expected to begin impacting core customers.

Richard

Richard and Liza

Just want you to be aware that cold weather conditions are building and may affect PG&E's gas system. No emergency situations as of now.

Laura

From: Bhatthal, Swaran (GSO)
Sent: Tuesday, December 03, 2013 9:21 AM
Subject: UPDATE: Cold Weather Alert for Dec 5 and Dec 6

ALL:

The Cold Weather Alert remains in effect for Thursday 12/05/13 and Friday 12/06/13. The current forecast is calling for most areas to be at or beyond our Cold Winter Day (CWD) conditions, including Redding, Red Bluff, Sacramento, Oakland, Santa Rosa, Eureka, and Santa Cruz. Several operations are being implemented across the system, as per the Winter Plan, and that we are evaluating the need for curtailments in the Eureka area.

The temperatures are expected to remain cold and the forecast is for a cold weekend. We will continue to provide updates to this alert after each morning forecast, at a minimum, and at other times should the forecast or expected conditions change significantly.

Thank you,

Swaran Bhatthal
