Subject: RE: UPDATE: Cold Weather Alert for Dec 5 and Dec 6

Thanks for the feedback Richard – I'm really sorry I had to miss it, and Mel and Rick have been too busy to let me know how it went. If you have any suggestions about how we can improve the message/data, please let me know.

Isn't the control center cool? You know you are welcome any time. Look forward to seeing you Thursday too.

Laura

Thanks Laura. The information below is really helpful.

By the way, the trip to the gas control center yesterday was great, and Mel and Rick gave us very useful and clear presentations.

Subject: FW: UPDATE: Cold Weather Alert for Dec 5 and Dec 6

Richard and Liza

Just want you to be aware that cold weather conditions are building and may affect PG&E's gas system. No emergency situations as of now.

Laura

Subject: UPDATE: Cold Weather Alert for Dec 5 and Dec 6

ALL:

The Cold Weather Alert remains in effect for Thursday 12/05/13 and Friday 12/06/13. The current forecast is calling for most areas to be at or beyond our Cold Winter Day (CWD) conditions, including Redding, Red Bluff, Sacramento, Oakland, Santa Rosa, Eureka, and Santa Cruz. Several operations are being implemented across the system, as per the Winter Plan, and that we are evaluating the need for curtailments in the Eureka area.

The temperatures are expected to remain cold and the forecast is for a cold weekend. We will continue to provide updates to this alert after each morning forecast, at a minimum, and at other times should the forecast or expected conditions change significantly.

Thank you,

Swaran Bhatthal
