Subject: Gas Line Break in Oakland

There is currently a gas incident in Oakland due to a gas line break on a 3-4 inch distribution pipeline. Gas Operations employees are on scene and working with the Oakland Fire Department. We will send updated materials as they become available.

- PG&E crews have responded to a gas line break in Oakland.
- GSRs are on site, and our gas crews are working to safely stop the flow of gas as quickly as possible.
- Once the flow of gas has been stopped, we will begin investigating the cause of this line break.
