Subject: RE: PG&E's SmartMeter Workshop - Dec 4

Thanks, Alope, for letting us know who from the CPUC will be attending and for the suggestions on the content.

Importance: High

David:

To update, it appears about half dozen other CPUC staff will be attending the workshop, including ED/ORR and management. Jim may want to consider adjusting the presentation with this audience in mind and go beyond just summarizing deployment stats; one suggestion to make it more interesting is to include some slides on examples of how AMI is already yielding tangible benefits for both the IOU & ratepayers and PG&E plans to leverage the AMI platform further going forward.

Thanks, Alope. We'll try to get to the CPUC around 10am and give you a call from the lobby.

Jim Meadows is presenting and he expects to cover mainly the topics he covered last year (update on the program, number of customers with SmartMeters, etc.).

Thanks,
David

I will be there; not sure who else will be there yet, but there will be some. Who is presenting and what do you expect to cover?

Re logistics, just need to come in earlier to set up the table/chairs in whatever configuration you need. I can meet you in the lobby and get the room opened up.

Hi Alope,

Will you be attending PG&E's SmartMeter workshop on Dec 4? Do you if others from ED will be there?

Any details about the logistics we need to discuss this week?

Thanks,
