[Redacted]

Thank you. This is helpful and aids our ongoing efforts to track development of new technologies that may benefit the ratepayers and improve system safety and reliability. We will certainly follow up with additional questions.

Best,
Dave

Dave,

Attached are PG&E's responses to your questions on microgrids. Please let us know if you have any follow-up questions.

Thanks,

Subject: PG&E and microgrids

Hi Kevin,

I'm doing an informal survey of the IOUs view of microgrids, and where they fit into the overall smart grid strategy. This is not a formal data request, but is related to a research project I am conducting on microgrids. There is no Commission action planned on microgrids. I'm hoping to produce a whitepaper on the subject at some point.

There is no "due date" on these questions, but it would be great to have a response within a couple of weeks or so.

Thanks for your attention to this. If you're not the right person to direct this to, can you please give me the correct contact? Thanks.

Best,
Dave Erickson
