Where: Courtyard Room

JD Power will present the results of an inaugural study they just completed, "Consumer Engagement in Energy Efficiency." This is the first national JD Power study benchmarking Consumer Engagement on EE. [Redacted] at PG&E has arranged for this presentation.

While the Consumer Engagement Study results and rankings will never be released to the

public (PG&E signed a license agreement that prevents them from sharing the results externally), JD Power has said they would be willing to present the results to the CPUC so long as the materials/results are not released.

The call in number will be Redacted.
