Reply-To: "Quach, Daniel C." <daniel.quach@cpuc.ca.gov>

Comcast technician arrived and reported a fiber cut near Franklin and Golden Gate. Our equipment was tested and working as expected. We were informed it might take up to 48 hours to repair the fiber line.

Thanks

Daniel

CPUC ALERT <cpuc_alert@cpuc.ca.gov> wrote:

Good afternoon,

The Comcast line that supports our wireless network in the San Francisco (505 Van Ness) building is not functioning. We have reported the issue to Comcast and a technician has been dispatched. Their lead time is anywhere from 3pm- 6 pm today.

We will work closely with Comcast once they are on site and provide more updates as we have them.

Thank you for your patience.
