Hehehe. Very good. I think they are already the best at protecting cpuc and guests. Police and fire? They have a lot to answer for.

Subject: CPUC Emergency Team

Good morning CPUC SF,

I want to start by saying "Thank You" for your participation in yesterday's Emergency Evacuation Drill, we evacuated the entire building in just a little over 5 minutes.

We are in the process of re-vamping the CPUC Emergency Team and we need YOU !!!

The CPUC is focusing on Safety and Security and it is our goal to ensure that we make every effort to complete this mission. The CPUC Emergency Team is a vital part of reaching this goal. One of our most

important duties is to assist CPUC employees and guests in evacuating the building in an emergency. However, we are more than just that, we are here to assist in other situations that may not require an evacuation.

The CPUC Emergency Team is now meeting quarterly and being trained in various aspects of building emergency response. Our number one objective is to be the best at what we do and that is protecting the CPUC employees and guests. The training that we receive can be used to save a life here in the office or at home.

The CPUC Emergency Team is looking for dedicated CPUC employees to volunteer their time to help fill a few vacancies. We are operating at a deficit on the second, fourth and fifth floors. If you are interested in showing your commitment to helping the CPUC become the leader in Safety and Security, please reply to this email and tell me of your interest. The only requirement is your commitment to helping your co-workers and our guests. There are quarterly meetings to attend for updates and instructions and training will be on-going.

Thank you for your interest, Victor

Victor D. Serrato

Emergency Team Coordinator
