Subject: GRC RO Model

John,

I would like to set up a short meeting with the appropriate person(s) from PG&E to discuss the GRC results of operations model, and the ability to have the model automatically develop summary of earnings tables based on the ALJ's adopted expenditures in the PD for the GRC.

Jean Jarjoura, Greg Wilson, and I have met with the ALJ and discussed what tables will need to be appended to the PD. I'd like to arrange to meet with Niel Jones (if he is the right person at PG&E) to go over these tables with Jean and Greg, and the model's capability to generate the tables automatically.

Can I first discuss with you?
