Subject: Re: CWC Demobilization at Kern Power Plant site

Do you have any availability December 17th in the afternoon?

Thanks Erik. We will take a look at the CWC request in advance of your call. Might be good to schedule ahead so both Rick and I can be on the call. Were you thinking of next week, or later?

Valerie and Rick,

Attached is a letter we received today from counsel for Cleveland Wrecking Company (CWC) requesting approval from the CPUC to remove materials and equipment from the Kern Power Plant site. We will obviously not grant CWC access to the site to remove materials and equipment without your prior approval. It will be important to ensure that it is safe for CWC to proceed with demobilization activities and also that demobilization does not compromise evidence needed for the forensic investigation. We are in the process of following up on these issues. In addition, there are other demobilization requirements aside from equipment removal that we are discussing with CWC.

I will call you in the near future to discuss next steps and how to coordinate the CWC demobilization effort with our overall workplan to resume demolition of the Kern Power Plant.

Best regards,

Erik
