Liza,

We can definitely use this agreement as a template to move forward when needed.

Thank you,

Brian,

Happy New Year and thank you for the update. I'm hopeful that this effort can pave the way for using LLNL going forward on other issues as well, should the need arise.

Kind Regards,

Liza

Liza,

It's been a difficult grind but the PG&E/LLNL is being routed for signature. I truly appreciate your patience in allowing us to deal with the stringent requirements of the DOE and the lab.

I will continue to keep you posted.

Kristin,

My legal dept. has reviewed your revisions and they are fine with the changes. Are we in agreement that I can sign and forward to you and Jeff the final Agreement package for your execution? Let me know. Thanks,

Michael,

Thank you for taking the time to talk to me about the Statement of Work. As per our discussion, attached is a revised version of the document that restores the original language in the tasking section to ensure compatibility with the DoE approved proposal.

Thank you again for your time,  
Kristin

Jeff,

I'm attaching a streamlined version of Appendix A, Statement of Work that has been recommended by PG&E's legal dept. Please accept this document as the final SOW language.

I await your approval of the Agreement language and will forward you a signed copy once your approval is received.

Please let me know if there are any questions.
