BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Order Instituting Rulemaking to Integrate and Refine Procurement Policies and Consider Long-Term Procurement Plans	R.12-03-014 (Filed March 22, 2012)

REQUEST FOR JUDICIAL NOTICE OF THE CALIFORNIA ENVIRONMENTAL JUSTICE ALLIANCE

Pursuant to California Public Utilities Commission ("CPUC") Rule of Practice and Procedure 13.9, California Environmental Justice Alliance ("CEJA") respectfully requests judicial notice of the United States Census Bureau data regarding the population density of California county divisions, attached hereto and marked as Exhibit CEJA x CAISO 1.

CPUC Rule of Practice and Procedure 13.9 provides that "[o]fficial notice may be taken of such matters as may be judicially noticed by the courts of the State of California pursuant to Evidence Code section 450 et seq." California Evidence Code § 452(h) provides that judicial notice may be taken of "[f]acts and propositions that are not reasonably subject to dispute and are capable of immediate and accurate determination by resort to sources of reasonably indisputable accuracy." Any matter to be judicially noticed must be relevant.[1]

It is well established that California courts may take judicial notice of data prepared by the U.S. Census Bureau.[2] Data prepared by the U.S. Census Bureau are not reasonably subject to dispute, and they may be accurately and readily determined from a source of reasonably indisputable accuracy—namely, the U.S. Census Bureau itself.

The exhibit marked as CEJA x CAISO 1 contains population density data retrieved from the U.S. Census Bureau website, Census.gov. The heading of the exhibit reads "U.S. Census

[1] *See* People ex rel. Lockyer v. Shamrock Foods Co., 24 Cal. 4th 415 (2000).
[2] *See, e.g.*, Wehrle v. Bd. of Water & Power Comm'rs of Los Angeles, 211 Cal. 70 (1930) (California Supreme Court took judicial notice of a substantial increase in the population of the city of Los Angeles); Johnson v. Ulrey, 201 Cal. 456 (1927) (California Supreme Court took judicial notice that a district was sparsely populated); People v. Bhakta, 37 Cal. App. 4th 631 (2006) (Court of Appeal took judicial notice that city population was over 750,000).

Bureau," while the subheading reads "American FactFinder." American FactFinder is "[an] interactive application provid[ing] statistics from the Economic Census, the American Community Survey, and the 2010 Census, among others."[3] The last page of the exhibit identifies the source for the data contained in the exhibit as "U.S. Census Bureau, 2010 Census." Thus, the data contained in the exhibit may be accurately and immediately determined by resort to the Census Bureau, a source of reasonably indisputable accuracy.

Furthermore, the Census data included in the exhibit are relevant to the current proceeding. Under the California Evidence Code, evidence is relevant if it has "any tendency in reason to prove or disprove any disputed fact that is of consequence to the determination of the action."[4]

In his rebuttal testimony, CAISO witness Robert Sparks testified that population density in San Diego was one of the bases for CAISO's recommendation against load shedding.[5] To the extent that CAISO's opinion on load shedding is relevant to the question of the impact the outage of San Onofre Nuclear Generating Station, the basis for its opinion is relevant. Consequently, population density both of the San Diego area, and other areas where CAISO has approved load shedding is relevant. This data has a tendency to prove or disprove a disputed matter—namely, whether or not load shedding is appropriate—that is of consequence to the determination of the action.

[4] Cal. Evid. Code § 210.
[5] Exhibit CAISO 2, p. 7 (emphasis added).

For the foregoing reasons, CEJA respectfully requests judicial notice of the U.S. Census Bureau data contained in the exhibit marked CEJA x CAISO 1, and attached hereto.

October 29, 2013

Respectfully submitted,

/s/ James J. Corbelli
