RE: Request of the Self Generation Incentive Program (SGIP) Program
Administrators (PAs) for an Extension of Time in accordance with
Rule 16.6 to file the Renewable Fuel Use Report (RFUR)

Dear Mr. Cherry:

On December 10, 2013, Pacific Gas and Electric Company, on behalf of the SGIP PAs, requested an extension of time to comply with Decision 02-09-051, which directs the SGIP PAs to file an updated RFUR every six months. More specifically, the SGIP PAs requested an extension until February 28, 2014, to file the next report, due to the high volume of directed biogas projects addressed in the current RFUR, as well as outside delays in obtaining the data and documentation necessary to determine compliance with the 75% biogas requirement.

The extension requested is granted.

Sincerely,

/s/ PAUL CLANON
