# COMMENTS ON THE ASSIGNED COMMISSIONER RULING REGARDING THE INTERCONNECTION OF ENERGY STORAGE SYSTEMS PAIRED WITH RENEWABLE GENERATORS ELIGIBLE FOR NET ENERGY METERING

This filing is in response to the December 10<sup>th</sup>, 2013 email from President Peevey's advisor,

Scott Murtishaw.

Many residential grid tied battery backup photovoltaic systems have been backfeeding to the

grid with interconnection agreements for years. Can you ask the utilities for specific events

when these systems were a hazard to the grid?
