Subject: Clarification - 12 10 13 Oakland - Gas - Final

Mr. Robertson,

Yesterday, January 9, 2014, PG&E provided the attached 30-day letter and final 420 report for the December 10, 2013 incident in Oakland. Earlier, on December 20, 2013, a letter was sent to Elizaveta Malashenko providing the status of PG&E's analysis as well as committing to completing our final report and analysis of the root cause of this incident by January 15, 2014. I wanted to clarify that PG&E is continuing to move forward and will be providing an update as outlined in our December 20th correspondence including a final report.

Sincerely,

Bill Gibson
