Subject: Re: A reminder about proper Christmas tree disposal

Never dispose of it in your fireplace? Is he kidding? I always use bits of old trees as my kindling. My dad did it, now I do the same. He can bite me.

I still have my tree up.

MC

Subject: NIST Tree Fire Video

If you still have a Christmas Tree inside your house, may I suggest it is time to remove it today?

Attached is a video that illustrates the extreme hazard dry trees pose to your home.

I've personally been inside a room where a tree was ignited in a test environment and witnessed the same scenario shown in this video. It is very frightening.

NEVER dispose of a tree by throwing any part of it into a fireplace.
