Subject: DR OIR "bifurcation" issue

Hi Cindy,

As I mentioned in our phone call of January 13, the comments ORA submitted to the CPUC on the "bifurcation" issue were very good, valuable and I think very consistent with those of us and many other parties.

The DR Collaborative group is planning to meet with the CPUC advisors to discuss this issue on January 24 and the attached deck is what we are planning to use. Slide 2 summarizes the points we feel have a broad consensus and Slide 3 lists the members of the DR Collaborative as well as parties we feel made similar points in their comments. We have tentatively included ORA in that list of parties. But we want to make sure you would be comfortable with us saying that. Also, if you would like to attend the meeting to help communicate the consensus, that would be very helpful.

I'd be happy to discuss this with you (and of course Sudheer and Mike) more.

Can we hear back from you by 1pm on Friday January 17?

Hope we work with you on this, as it is critical to the future of providing our ratepayers a reasonable range of cost effective DR options.
