(Filed June 21, 2012)

**PROOF OF RULE 3.2 COMPLIANCE OF SUPPLEMENTAL FILING OF
SAN DIEGO GAS & ELECTRIC COMPANY (U 902 M) FOR PHASE 2
INTERIM RATE CHANGES**

Pursuant to Rule 3.2 of the Commission's Rules of Practices and Procedures, San Diego Gas & Electric Company (SDG&E) hereby submits evidence of its compliance with Rule 3.2, as follows:

1. **Attachment A**, which contains SDG&E's proof of service of the *Notice of Availability of Supplemental Filing of San Diego Gas & Electric Company (U 902 M) for Phase 2 Interim Rate Changes, Rulemaking 12-06-013*, on the applicable state, county and municipal government agencies in accordance with Rule 3.2(b);
2. **Attachment B**, which contains SDG&E's proof of posting of the *Notice of Availability of Supplemental Filing of San Diego Gas & Electric Company (U 902 M) for Phase 2 Interim Rate Changes, Rulemaking 12-06-013* for public viewing at SDG&E's business offices;
3. **Attachment C**, which contains SDG&E's proof of newspaper publications of the *Notice of Availability of Supplemental Filing of San Diego Gas & Electric*

Company (U 902 M) for Phase 2 Interim Rate Changes, Rulemaking 12-06-013

in accordance with Rule 3.2(c); and

4. **Attachment D**, which contains SDG&E's *Notification of Supplemental Filing of San Diego Gas & Electric Company (U 902 M) for Phase 2 Interim Rate Changes, Rulemaking 12-06-013*, in accordance with Rule 3.2(d), as well as a Declaration demonstrating SDG&E's timely compliance with Rule 3.2(d).

Respectfully submitted this 7th day of January 2014.

Respectfully submitted,

By: /s/ Thomas R. Brill

NOTICE OF AVAILABILITY

Supplemental Filing of San Diego Gas & Electric Company (U 902 E) for Phase 2 Interim Rate Changes

Pursuant to PUC Code §454, the Commission's Rules of Practice and Procedure Rule 2.1-2.3 and 3.2, the Assigned Commissioner's Ruling ("ACR") issued in Rulemaking 12-06-013 on October 25, 2013, and Assembly Bill 327 ("AB 327"), San Diego Gas & Electric Company (U 902-E) ("SDG&E") submits this *Supplemental Filing for Phase 2 Interim Rate Changes*. This Supplemental Filing is designed to comply with the guidance provided in the ACR, the November 14, 2013 e-mail ruling of Administrative Law Judge ("ALJ") Jeanne M. McKinney, as well as AB 327. This Supplemental Filing and supporting testimony is available to all interested parties and to the public. Any recipient of this Notice of Availability may request a copy of the filing. In addition, SDG&E has the following web sites to view this application, testimony and notice. They are the following:

<http://sdge.com/proceedings>.

<http://sdge.com/regulatory-notice>.

This Supplemental Filing presents SDG&E's Interim Rate Change proposals. SDG&E proposes the following:

- Increases to lower tier rates (increase Tier 1 rate to Tier 2 levels) to provide relief to upper tier rates;
- To consolidate Tiers 3 & 4 in this proceeding, in the event SDG&E does not receive approval for the consolidation of Tiers 3 & 4 in its pending Test Year 2012 General Rate Case Phase 2 Application 11-10-002, originally filed October 3, 2011;
- To move California Alternate Rates for Energy ("CARE") subsidies from rates to a line item on the bill for residential and non-residential CARE customers;
- A transition path to bring the effective CARE discount within 30-35% for residential and non-residential CARE customers; and
- A four year transition for rates applicable to non-CARE medical baseline customers resulting from SDG&E's proposals related to CARE and non-CARE tiered rates.

The proposals SDG&E is making herein have been carefully designed to comply with the requirements of AB 327 as well as all of the guidance provided in the ACR including the expectation that, "Rate design changes proposed for 2014 should be modest, easy to evaluate, and consistent with AB 327."

A copy of the documents described above will be provided immediately upon the written request of the party receiving this notice. All requests should be directed to:

SAN DIEGO GAS & ELECTRIC COMPANY

NOTIFICATION OF FILING FOR INTERIM RESIDENTIAL RATE CHANGES AND POTENTIAL IMPACT ON ELECTRIC RATES PHASE 2 OF RULEMAKING 12-06-013

On November 22, 2013, San Diego Gas & Electric Company (SDG&E) filed a request to implement interim rate changes with the California Public Utilities Commission (CPUC) pursuant to Assembly Bill (AB) 327 and the Assigned Commissioner Ruling of Commissioner Michael R. Peevey, dated October 25, 2013. SDG&E's filing is part of the CPUC's efforts to explore improved residential rate design structures, currently being examined in the context of the CPUC's Order Instituting Rulemaking (R.) 12-06-013.

The changes proposed in SDG&E's filing are limited to:

1. Changes in residential tiered rates - SDG&E proposes to move from a four-tier rate design to a two-tiered rate design.
2. Changes to the California Alternate Rates for Energy (CARE) discounts for income-qualified households - SDG&E proposes to implement the CARE discount through a line item on customer bills, and a transition path to reach the legislated 30-35% average effective discount.

Tiered Rate Proposal

Currently, residential customers pay tiered rates for electric service based on something called their baseline usage. Baseline is a state law which currently provides residential customers a certain amount of energy at the lowest rate. In general, the amount of energy is about 60 to 60 percent of the system-wide average residential customer. SDG&E's current standard residential rates have a four-tiered rate structure as follows:

- Tier 1: usage up to Baseline;
- Tier 2: 101%-130% of Baseline;
- Tier 3: 131%-200% of Baseline; and
- Tier 4: Above 200% of Baseline.

Lower tier rates are now well below cost and upper tier rates are now well above cost as a result of legislation that was adopted following the California energy crisis in 2001. AB 327 lifted these legislative limitations and authorized the CPUC to correct many of the flaws that exist under this rate design. Therefore, SDG&E proposes in this filing to move to a two-tiered rate structure with up to 130% of baseline usage being billed at the current Tier 2 rate of \$0.17 per kWh and above 131% of baseline usage being billed at \$0.29 per kWh.

The table below illustrates SDG&E's proposal regarding revisions to the tiered structure:

Usage	Current Rate (\$/kWh)	Proposed (\$/kWh)	Change (\$/kWh)	% Change
Tier 1: Up to 100% of Baseline	14.764	17.077	2.313	15.7%
Tier 2: 101%-130% of Baseline	17.077	17.077	0.000	0.0%
Tier 3: 131%-200% of Baseline	34.590	29.131	(5.459)	-15.8%
Tier 4: Above 200% of Baseline	36.590	29.131	(7.459)	-20.4%

Note: Summer rates presented.

CARE Proposal

The CARE program provides a monthly discount on energy bills for income-qualified households. Today, because CARE customers receive a 20% line item discount on their bill plus are exempt from paying certain rate components, the current effective CARE discount is approximately 39% for residential CARE, 48% for small commercial CARE, and 49% for Medium and Large Commercial and Industrial (C&I) CARE. AB 327 allows for the discount to be removed from the rates to a line item discount to create greater price transparency and to efficiently manage the CARE discount percentage going forward. AB 327 also sets the CARE discount to be between 30% and 35%. SDG&E proposes a transition path to reach the 30-35% effective discount range with annual reductions by 2.5% a year.

In addition, SDG&E's proposed changes to non-CARE and CARE rates will have impacts to medical baseline rates. SDG&E proposes a 4-year transition for medical baseline rates from their current Tier 1 rates to the proposed Tier 1 rates to mitigate the impacts to these customers.

ILLUSTRATIVE IMPACT ON ELECTRIC RATES AND BILLS

If the CPUC approves SDG&E's request, a typical non-CARE residential customer living in the inland climate zone and using 500 kilowatt-hours per month could see a monthly summer bill increase of 4.9%, or \$4.33, from a current monthly bill of \$88.92 to \$93.25.

As seen in the table below, a typical CARE residential customer living in the inland climate zone and using 500 kilowatt-hours per month could see a monthly summer bill increase of 1.1%, or \$0.61, from a current monthly bill of \$56.46 to \$57.07.

Class	Current Total Rate (\$/kWh)	Proposed Total Rate (\$/kWh)	Total Rate Change (\$/kWh)	Total Rate Change (%)
Residential	20.599	20.165	(0.433)	-2.10%

The filing and related exhibits are also available electronically on SDG&E's website at www.sdge.com/regulatory/cpuc.shtml.

Copies of this bill insert will be available for viewing and printing on the SDG&E website at www.sdge.com/billinserts/regulatory.shtml.

CPUC PROCESS

This filing will be assigned to an Administrative Law Judge (ALJ) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned ALJ will issue a proposed decision determining whether to adopt all or part of SDG&E's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

STAY INFORMED

The CPUC offers a free Subscription Service which is available on the CPUC website at www.cpuc.ca.gov which allows you to follow this proceeding. If you would like to learn how you can participate in the proceeding, or if you have informal comments or questions about the CPUC process, you may contact the CPUC's Public Advisor's Office (PAO) at the address noted below. When writing, please reference proceeding Phase 2 of R.12-08-013. All written correspondence and emails are provided to the Commissioners and the assigned ALJ for this proceeding to review.

Write: CPUC Public Advisor's Office

SAN DIEGO GAS & ELECTRIC COMPANY

NOTIFICATION OF FILING FOR INTERIM RESIDENTIAL RATE CHANGES AND POTENTIAL IMPACT ON ELECTRIC RATES PHASE 2 OF RULEMAKING 12-06-013

On November 22, 2013, San Diego Gas & Electric Company (SDG&E) filed a request to implement interim rate changes with the California Public Utilities Commission (CPUC) pursuant to Assembly Bill (AB) 327 and the Assigned Commissioner Ruling of Commissioner Michael R. Peevey, dated October 25, 2013. SDG&E's filing is part of the CPUC's efforts to explore improved residential rate design structures, currently being examined in the context of the CPUC's Order Instituting Rulemaking (R.) 12-06-013.

The changes proposed in SDG&E's filing are limited to:

1. Changes in residential tiered rates - SDG&E proposes to move from a four-tier rate design to a two-tiered rate design.
2. Changes to the California Alternate Rates for Energy (CARE) discounts for income-qualified households - SDG&E proposes to implement the CARE discount through a line item on customer bills, and a transition path to reach the legislated 30-35% average effective discount.

Tiered Rate Proposal

Currently, residential customers pay tiered rates for electric service based on something called their baseline usage. Baseline is a state law which currently provides residential customers a certain amount of energy at the lowest rate. In general, the amount of energy is about 50 to 60 percent of the system-wide average residential customer. SDG&E's current standard residential rates have a four-tiered rate structure as follows:

- Tier 1: usage up to Baseline;
- Tier 2: 101%-130% of Baseline;
- Tier 3: 131%-200% of Baseline; and
- Tier 4: Above 200% of Baseline.

Lower tier rates are now well below cost and upper tier rates are now well above cost as a result of legislation that was adopted following the California energy crisis in 2001. AB 327 lifted these legislative limitations and authorized the CPUC to correct many of the flaws that exist under this rate design. Therefore, SDG&E proposes in this filing to move to a two-tiered rate structure with up to 130% of baseline usage being billed at the current Tier 2 rate of \$0.17 per kWh and above 131% of baseline usage being billed at \$0.29 per kWh.

The table below illustrates SDG&E's proposal regarding revisions to the tiered structure:

Usage	Current Rate (\$/kWh)	Proposed (\$/kWh)	Change (\$/kWh)	% Change
Tier 1: Up to 100% of Baseline	14.764	17.077	2.313	15.7%
Tier 2: 101%-130% of Baseline	17.077	17.077	0.000	0.0%
Tier 3: 131%-200% of Baseline	34.590	29.131	(5.459)	-15.8%
Tier 4: Above 200% of Baseline	38.590	29.131	(9.459)	-24.4%

Note: Summer rates presented.

CARE Proposal

The CARE program provides a monthly discount on energy bills for income-qualified households. Today, because CARE customers receive a 20% line item discount on their bill plus are exempt from paying certain rate components, the current effective CARE discount is approximately 35% for residential CARE, 46% for small commercial CARE, and 48% for Medium and Large Commercial and Industrial (C&I) CARE. AB 327 allows for the discount to be removed from the rates to a line item discount to create greater price transparency and to efficiently manage the CARE discount percentage going forward. AB 327 also sets the CARE discount to be between 30% and 35%. SDG&E proposes a transition path to reach the 30-35% effective discount range with annual reductions by 2.5% a year.

In addition, SDG&E's proposed changes to non-CARE and CARE rates will have impacts to medical baseline rates. SDG&E proposes a 4-year transition for medical baseline rates from their current Tier 1 rates to the proposed Tier 1 rates to mitigate the impacts to these customers.

ILLUSTRATIVE IMPACT ON ELECTRIC RATES AND BILLS

If the CPUC approves SDG&E's request, a typical non-CARE residential customer living in the inland climate zone and using 500 kilowatt-hours per month could see a monthly summer bill increase of 4.9%, or \$4.33, from a current monthly bill of \$88.92 to \$93.25.

As seen in the table below, a typical CARE residential customer living in the inland climate zone and using 500 kilowatt-hours per month could see a monthly summer bill increase of 1.1%, or \$0.61, from a current monthly bill of \$56.46 to \$57.07.

Class	Current Total Rate (\$/kWh)	Proposed Total Rate (\$/kWh)	Total Rate Change (\$/kWh)	Total Rate Change (%)
Residential	20.569	20.155	(0.433)	-2.10%
Small Commercial	19.648	19.910	0.262	1.33%
Medium and Large C&I*	15.413	15.675	0.262	1.70%
Agriculture	19.087	19.350	0.262	1.37%
Liquoring	16.199	16.199	0.000	0.00%
System Total	17.770	17.770	0.000	0.00%

*C&I stands for Commercial & Industrial

SAN DIEGO GAS & ELECTRIC COMPANY

**NOTIFICATION OF FILING FOR INTERIM RESIDENTIAL RATE
CHANGES AND POTENTIAL IMPACT ON ELECTRIC RATES
PHASE 2 OF RULEMAKING 12-06-013**

On November 22, 2013, San Diego Gas & Electric Company (SDG&E)¹ filed a request to implement interim rate changes with the California Public Utilities Commission (CPUC) pursuant to Assembly Bill (AB) 327 and the Assigned Commissioner Ruling of Commissioner Michael R. Peevey, dated October 25, 2013. SDG&E's filing is part of the CPUC's efforts to explore improved residential rate design structures, currently being examined in the context of the CPUC's Order Instituting Rulemaking (R) 12-06-013.

The changes proposed in SDG&E's filing are limited to:

1. Changes in residential tiered rates - SDG&E proposes to move from a four-tier rate design to a two-tiered rate design.
2. Changes to the California Alternate Rates for Energy (CARE) discounts for income-qualified households - SDG&E proposes to implement the CARE discount through a line item on customer bills, and a transition path to reach the legislated 30-35% average effective discount.

Tiered Rate Proposal

Currently, residential customers pay tiered rates for electric service based on something called their baseline usage. Baseline is a state law which currently provides residential customers a certain amount of energy at the lowest rate. In general, the amount of energy is about 50 to 60 percent of the system-wide average residential customer. SDG&E's current standard residential rates have a four-tiered rate structure as follows:

- Tier 1: usage up to Baseline;
- Tier 2: 101%-130% of Baseline;
- Tier 3: 131%-200% of Baseline; and
- Tier 4: Above 200% of Baseline.

Lower tier rates are now well below cost and upper tier rates are now well above cost as a result of legislation that was adopted following the California energy crisis in 2001. AB 327 lifted these legislative limitations and authorized the CPUC to correct many of the flaws that exist under this rate design. Therefore, SDG&E proposes in this filing to move to a two-tiered rate structure with up to 100% of baseline usage being billed at the current Tier 2 rate of \$0.17 per kWh and above 131% of baseline usage being billed at \$0.29 per kWh.

The table below illustrates SDG&E's proposal regarding revisions to the tiered structure:

Usage	Current Rate (\$/kWh)	Proposed Rate (\$/kWh)	Change (\$/kWh)	% Change
Tier 1: Up to 100% of Baseline	14.764	17.077	2.313	15.7%
Tier 2: 101%-130% of Baseline	17.077	17.077	0.000	0.0%
Tier 3: 131%-200% of Baseline	34.590	29.131	(5.459)	-15.8%
Tier 4: Above 200% of Baseline	36.590	29.131	(7.459)	-20.4%

Note: Summer rates presented.

CARE Proposal

The CARE program provides a monthly discount on energy bills for income-qualified households. Today, because CARE customers receive a 20% line item discount on their bill plus are exempt from paying certain rate components, the current effective CARE discount is approximately 39% for residential CARE, 48% for small commercial CARE, and 49% for Medium and Large Commercial and Industrial (C&I) CARE. AB 327 allows for the discount to be removed from the rates to a line item discount to create greater price transparency and to efficiently manage the CARE discount percentage going forward. AB 327 also sets the CARE discount to be between 30% and 35%. SDG&E proposes a transition path to reach the 30-35% effective discount range with annual reductions by 2.5% a year.

In addition, SDG&E's proposed changes to non-CARE and CARE rates will have impacts to medical baseline rates. SDG&E proposes a 4-year transition for medical baseline rates from their current Tier 1 rates to the proposed Tier 1 rates to mitigate the impacts to these customers.

ILLUSTRATIVE IMPACT ON ELECTRIC RATES AND BILLS

If the CPUC approves SDG&E's request, a typical non-CARE residential customer living in the inland climate zone and using 500 kilowatt-hours per month could see a monthly summer bill increase of 4.9%, or \$4.33, from a current monthly bill of \$86.92 to \$93.25.

As seen in the table below, a typical CARE residential customer living in the inland climate zone and using 500 kilowatt-hours per month could see a monthly summer bill increase of 1.1%, or \$0.61, from a current monthly bill of \$56.46 to \$57.07.

Class	Current Total Rate (\$/kWh)	Proposed Total Rate (\$/kWh)	Total Rate Change (\$/kWh)	Total Rate Change (%)
Residential	20.590	20.165	(0.425)	-2.06%
Small Commercial	19.648	19.910	0.262	1.33%
Medium and Large C&I*	15.413	15.675	0.262	1.70%
Agriculture	19.087	19.250	0.262	1.37%
Lighting	16.199	16.199	0.000	0.00%
System Total	17.770	17.770	0.000	0.00%

SAN DIEGO GAS & ELECTRIC COMPANY NOTIFICATION OF FILING FOR INTERIM RESIDENTIAL RATE CHANGES AND POTENTIAL IMPACT ON ELECTRIC RATES PHASE 2 OF RULEMAKING 12-06-013

On November 22, 2013, San Diego Gas & Electric Company (SDG&E®) filed a request to implement interim rate changes with the California Public Utilities Commission (CPUC) pursuant to Assembly Bill (AB) 327 and the Assigned Commissioner Ruling of Commissioner Michael R. Peevey, dated October 25, 2013. SDG&E's filing is part of the CPUC's efforts to explore improved residential rate design structures, currently being examined in the context of the CPUC's Order Instituting Rulemaking (R.) 12-06-013.

The changes proposed in SDG&E's filing are limited to:

1. Changes in residential tiered rates - SDG&E proposes to move from a four-tier rate design to a two-tiered rate design.
2. Changes to the California Alternate Rates for Energy (CARE) discounts for income-qualified households – SDG&E proposes to implement the CARE discount through a line item on customer bills, and a transition path to reach the legislated 30-35% average effective discount.

TIERED RATE PROPOSAL

Currently, residential customers pay tiered rates for electric service based on something called their baseline usage. Baseline is a state law which currently provides residential customers a certain amount of energy at the lowest rate. In general, the amount of energy is about 50 to 60 percent of the system-wide average residential customer. SDG&E's current standard residential rates have a four-tiered rate structure as follows:

- Tier 1: usage up to Baseline;
- Tier 2: 101%-130% of Baseline;
- Tier 3: 131%-200% of Baseline; and
- Tier 4: Above 200% of Baseline.

Lower tier rates are now well below cost and upper tier rates are now well above cost as a result of legislation that was adopted following the California energy crisis in 2001. AB 327 lifted these legislative

limitations and authorized the CPUC to correct many of the flaws that exist under this rate design. Therefore, SDG&E proposes in this filing to move to a two-tiered rate structure with up to 130% of baseline usage being billed at the current Tier 2 rate of \$0.17 per kWh and above 131% of baseline usage being billed at \$0.29 per kWh.¹

The table below illustrates SDG&E's proposal regarding revisions to the tiered structure:

Usage	Current Rate (¢/kWh)	Proposed (¢/kWh)	Change (¢/kWh)	% Change
Tier 1: Up to 100% of Baseline	14.764	17.077	2.313	15.7%
Tier 2: 101%-130% of Baseline	17.077	17.077	0.000	0.0%
Tier 3: 131%-200% of Baseline	34.590	29.131	(5.459)	-15.8%
Tier 4: Above 200% of Baseline	36.590	29.131	(7.459)	-20.4%

Note: Summer rates presented.

CARE PROPOSAL

The CARE program provides a monthly discount on energy bills for income-qualified households. Today, because CARE customers receive a 20% line item discount on their bill plus are exempt from paying certain rate components, the current effective CARE discount is approximately 39% for residential CARE, 48% for small commercial CARE, and 49% for Medium and Large Commercial and Industrial (C&I) CARE. AB 327 allows for the discount to be removed from the rates to a line item discount to create greater price transparency and to efficiently manage the CARE discount percentage going forward.

¹ Consolidation Tiers 3 and 4 was requested in SDG&E's General Rate Case Phase 2 Application (A.) 11-10-002. At the time of this filing, A.11-10-002 is still pending before the CPUC. Should a timely decision not be reached in that proceeding, SDG&E will seek consolidation of Tiers 3 and 4 in this proceeding.

AB 327 also sets the CARE discount to be between 30% and 35%. SDG&E proposes a transition path to reach the 30-35% effective discount range with annual reductions by 2.5% a year.

In addition, SDG&E's proposed changes to non-CARE and CARE rates will have impacts to medical baseline rates. SDG&E proposes a 4-year transition for medical baseline rates from their current Tier 1 rates to the proposed Tier 1 rates to mitigate the impacts to these customers.

ILLUSTRATIVE IMPACT ON ELECTRIC RATES AND BILLS

If the CPUC approves SDG&E's request, a typical non-CARE residential customer living in the inland climate zone and using 500 kilowatt-hours per month could see a monthly summer bill increase of 4.9%, or \$4.33, from a current monthly bill of \$88.92 to \$93.25.

As seen in the table below, a typical CARE residential customer living in the inland climate zone and using 500 kilowatt-hours per month could see a monthly summer bill increase of 1.1%, or \$0.61, from a current monthly bill of \$56.46 to \$57.07.

Class	Current Total Rate (¢/kWh)	Proposed Total Rate (¢/kWh)	Total Rate Change (¢/kWh)	Total Rate Change (%)
Residential	20.599	20.165	(0.433)	-2.10%
Small Commercial	19.648	19.910	0.262	1.33%
Medium and Large C&I*	15.413	15.675	0.262	1.70%
Agriculture	19.087	19.350	0.262	1.37%
Lighting	16.199	16.199	0.000	0.00%
System Total	17.770	17.770	0.000	0.00%

*C&I stands for Commercial & Industrial

CPUC PROCESS

This filing will be assigned to an Administrative Law Judge (ALJ) who will determine how to receive evidence and other related documents, necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate. After considering all proposals and all evidence presented during the formal hearing process, the assigned ALJ will issue a proposed decision determining whether to adopt all or part of SDG&E's request, modify it, or deny it. The CPUC Commissioners may sponsor an alternate decision and the issue will be decided at a scheduled Commission Voting Meeting.

DECLARATION

I, Mary Ann Tilos Schwartz, am a citizen of the United States residing in San Diego County, California, and am over the age of 18.

I am now, and at all times referred to below, have been employed by the San Diego Gas & Electric Company as Creative Services & Branding Advisor in San Diego, California.

With regard to San Diego Gas & Electric Company's Rulemaking 12-06-013 before the California Public Utilities Commission, I was instructed to, and did supervise, the insertion and mailing of the Notices, attached hereto, to all known customers of the San Diego Gas & Electric Company other than "My Account Paperless" customers and other "Consolidated Accounts."

The insertion and mailing of the Notice to Customers of Proposed Changes commenced on Tuesday, December 3, 2013 with December Billing Cycle No. 1 and was completed on Thursday, January 2, 2014, with January Billing Cycle No. 21.

I declare under penalty of perjury that the foregoing is true and correct.

Mary Ann Tilos Schwartz
