Subject: FW: PG&E's Advice 3442-G– Request for Approval under Section 851 for [Redacted]

Ed and Mary Jo

We filed an advice letter (referenced below and 10 MB or I would attach it) requesting approval of a gas pipeline relocation that is needed for the new [Redacted] facility in San Jose.

Like most of the ALs you get, this one is time sensitive. [Redacted] is trying to complete construction of their major new facility on a tight timeline and we need approval to be able to get this work done. The City of San Jose is anxious and [Redacted] is inquiring with us nearly every day.

Is there any way you can give us an ETA on this AL?

Of course we're happy to meet or do whatever it takes to provide the information you might need. I am copying my colleague [Redacted] as well if you need any more detailed information about this filing.

Regards,

Laura
