Subject: RE: PG&E: Oakland Golf Links Road Gas Incident Final Report

Many thanks; Brian! I really appreciate your keeping me in the loop. Knowing the area, I am not surprised by the findings. Unfortunately I suspect that there are many areas like this in the service area-- Mother Nature has given us both great natural beauty and a treacherous landscape. It looks to me like your team has been diligent and thorough in working through this. There are no easy solutions and our only option is to stay vigilant and keep watch. That may be unsettling to some but for me I feel that we are in good hands. This situation will provide me with a good story to make use of on appropriate occasions.

May I share this with others who have asked about the situation from outside the PUC (friends and neighbors) or is this info confidential?

Please convey my appreciation to Nick and his team for all of their work on this and the many other hazardous situations they deal with every day. Mike

Subject: FYI: PG&E: Oakland Golf Links Road Gas Incident Final Report

Hi All,

I thought that you might all like to see the final root cause report and transmittal letter (which includes our follow up work to determine extent of condition and mitigation measures) that we recently filed with the CPUC regarding Oakland Golf Links Road fire....see attached.

Best, Nick
