Subject: PG&E's Emergency and Disaster Preparedness Plan Review

Public Sector Partners,

As you may be aware, PG&E is planning a series of regional meetings to provide key county and city representatives an opportunity to provide feedback on the company's electric emergency and disaster preparedness plans. As the identified point of contact for your agency, city and or county, attached you will find copies of PG&E's Electric Emergency Operations Plan and 2013 Fire Prevention Plan. As you review these plans, you will find limited redactions. Any redactions made were specific to references to sensitive information and hopefully do not hinder the comprehension of the elements of the plan.

These meetings will include a presentation by a member of PG&E's Electric Emergency Preparedness and Public Partnerships team intended to provide context to the plans you have been provided. We will then provide an opportunity for feedback and or questions regarding the plans. If follow up meetings would be beneficial we will support scheduling and participation.

We are looking forward to sharing our plans and opening the dialogue with all of the meeting representatives.

Thank you for your time. PG&E looks forward to your participation.

If you have any questions, please feel free to contact me via email: Redacted or by either phone number provided below.
