BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Order Instituting Rulemaking into Transfer of Master-Meter/Submeter systems at Mobilehome parks and Manufactured Housing Communities to Electric and Gas Corporations.

Rulemaking 11-02-018 (Filed February 24, 2011)

NOTICE OF EX PARTE COMMUNICATION

Pursuant to Rule 8.4(a) of the Commission's Rules of Practice and Procedure, Pacific Gas & Electric (PG&E) hereby gives notice of the following exparte communication. The communication occurred on Tuesday, February 25, 2014, at approximately 4:00 p.m. at the offices of the California Public Utilities Commission. The communication was oral and included handouts, which are attached. [Rule 8.4(a)(c)]

Brian Cherry, Vice President, Regulatory Relations, PG&E, initiated the communication with Charlotte TerKeurst, Advisor to Commissioner Michael Picker. Also present for PG&E were: Sidney Dietz, Director, Regulatory Relations; and Jonathan Seager, Manager, Gas and Electric Operations Proceedings. [Rule 8.4(b)]

Mr. Cherry stated that PG&E agrees with the approach of the Proposed

Decision (PD) in solving the problem of poorly-maintained Mobile-Home-Park

(MHP) gas and electric systems. Mr. Dietz stated that some of the systems

represent a safety threat to MHP residents, and that PD's approach will begin to

address the problem. Mr. Cherry stated that the PD should be changed to allow for

normal cost recovery of beyond-the-meter capital costs since, as the CPUC has

affirmed, safety investments should not be treated as less important than other

utility investments. Mr. Cherry further stated that the PD should be changed to

allow for recovery on a forecast and trueup basis, and that the PD should not

require a reasonableness review. [Rule 8.4(c)]

Respectfully submitted,

/s/ BRIANK. CHERRY

Brian K. Cherry
