Subject: RE: CPUC Reportable Gas Incident

It has been determined that the potential explosive device were containers filled with some sort of liquid and non-explosive. The SFFD will have their HazMat team test and dispose of the substance. PG&E was released at 1250.

We will request to rescind the incident report to the CPUC.

Subject: CPUC Reportable Gas Incident

At approximately 11:30 this morning PG&E received a call regarding a potential explosive device placed at or near a four meter manifold that Redacted, San Francisco. Police have established a command post and the bomb squad is on site. Nearby buildings have been evacuated and Redacted is blocked off at Redacted. Gas service representative arrived on site at 11:58 hours and PG&E is establishing incident command. At this writing there are no injuries, no fatalities and no damages. This is reportable to the CPUC due to the presence of major media on site and the potential involvement of gas facilities.

Please contact me if you have any questions.
