Subject: Re: Presentation from DistribuTECH

This is great -- short and clear and factual, but with good insights about the future direction, I bet it was well received.

Will let you know if there are any questions. Doubt there will be.

Thanks

Subject: Presentation from DistribuTECH

Laura,
You mentioned that there is interest at PG&E about the presentation I gave at DistribuTECH last week. You are in luck - not only do I have the presentation, but I also fully write up my speech ahead of time - attempts at humor included.

If anyone has any questions about anything on the presentation or what I said, please let me know. Happy to discuss.

Thanks,

Liza
