Molly

Thanks so much!

I completely agree and would love to have a conversation with you soon about how we can improve this going forward as you perfectly describe what always seems to happen.

Igor Grinberg and David Lee exchanged emails yesterday. This is a Tier 2. Hoping it is straightforward (and I know you always hear that!)

I'll be in touch next week to get on your calendar.

Thanks again Molly.

Laura,

I got your inquiry about PG&E's 851 AL that you sent to Ed Randolph. It would be helpful to understand the timing of Samsung. It would also be helpful if PG&E please (pretty please) notify us upon filing if your 851 or NOC ALs are urgent – rather than us hearing from the customer or generator. While I wish we did everything instantly, we are often juggling priorities --- and we seem to always hear from PG&E or a developer after you already need something urgently.

Having said that, this 851 seems straightforward and unopposed, so it shouldn't be hard to process. I'm the branch manager – so if you have follow up questions, give me a call or send

me an email.

Molly
