Great -- no problem unless you bring like 10! :)

Laura:

At this point the number of attendees from my team is not entirely certain yet. It could be from 1 to 3 people. Ken would like to come, but he's at best tentative for now because of a scheduling conflict. I plan to bring one additional engineer from my section.

Steve Haine

Steve

Got your voicemail (and your previous email) and we think we're good to cover the agenda. We won't be focusing on DIMP per se, but the SMEs for the assets will be there.

Who in addition to you is coming, is it Ken Bruno?

Raymond plans to call you to confirm(I mentioned in my VM this morning that we are at a big meeting today) and he will call the 510.282.8780 phone unless you advise otherwise.

We look forward to the discussion in San Ramon.

Thanks
Laura
