Subject: FW: PG&E inquiry on pricing trends for various technologies

Hi Sid/Steve,

Sorry for the delay but I did want to follow up with some additional information that might be useful. This short report provides some external resources you might want to look at in evaluating pricing trends for various technologies in the market. There isn't much documented in public reports at the moment as mentioned earlier but here's what I could have a partner of ours find (for non-lighting technologies).

Best Regards,
