Subject: RE: well under \$5M per year

Dude. Wow. Anyway, I hope this leads to more energy use by the banks, which is what I guess it's designed to do.

There's just not that many food banks (under 50?), and at under \$150K per year in gas and electric usage, 30 to 35% off just doesn't add up to that much.

I'm a fucking analytical bad ass.
