Subject: RE: PG&E Gas AL

Molly,

I agree that we need improvement in this area on both NOCs and 851s. I've checked in with Laura and we should have a process that applies to both [Redacted] [Redacted] who leads our advice letter team, will work on a proposed approach. We will then schedule time to discuss with you and get your feedback.

I also think we should consider adding 851s to our quarterly meeting. We will send dates on Monday to get the quarterly meeting scheduled too.

Have a great weekend.

Meredith

Molly

Thanks so much!

I completely agree and would love to have a conversation with you soon about how we can improve this going forward as you perfectly describe what always seems to happen.

[Redacted] and David Lee exchanged emails yesterday. This is a Tier 2. Hoping it is straightforward (and I know you always hear that!)

I'll be in touch next week to get on your calendar.

Thanks again Molly.

Laura

Subject: PG&E Gas AL

Laura,

I got your inquiry about PG&E's 851 AL that you sent to Ed Randolph. It would be helpful to understand the timing of Samsung. It would also be helpful if PG&E please (pretty please) notify us upon filing if your 851 or NOC ALs are urgent – rather than us hearing from the customer or generator. While I wish we did everything instantly, we are often juggling priorities --- and we seem to always hear from PG&E or a developer after you already need something urgently.

Having said that, this 851 seems straightforward and unopposed, so it shouldn't be hard to process. I'm the branch manager – so if you have follow up

questions, give me a call or send me an email.

Molly
