**Re: GHG Environmental Performance Standard (EPS) Compliance Filing 2014**

Pursuant to Ordering Paragraph No. 4 of Decision (“D.”) 07-01-039, issued in R. 06-04-009 on January 25, 2007, Shell Energy North America (US), L.P. (“Shell Energy”) submits this annual Attestation Letter affirming that the financial commitments Shell Energy has entered into for generation during the prior calendar year are in compliance with the greenhouse gas (“GHG”) emissions performance standard (“EPS”). Specifically, Shell Energy is in compliance with the EPS as it has no generation facilities and no long-term financial commitments for generation.

**Effective Date:** (No later than March 16, 2014 – 30 days after filing)

**Tier Designation:** Tier 2 Designation

**Purpose**

This Attestation Letter provides information and documentation required by D.07-01-039. This Attestation Letter demonstrates that for 2013 Shell Energy has entered into financial commitments that are in compliance with the EPS (long-term financial commitments defined on Page 3 of Attachment 7 in D.07-01-039).

**Background**

D.07-01-039 requires all Load Serving Entities (“LSEs”) to file annual Attestation Letters, due February 15<sup>th</sup> of each year, attesting to the Commission that the financial commitments entered into for generation during the prior calendar year are in compliance with the EPS. D.07-01-039 requires LSEs to file Attestation Letters as an advice letter and serve the Attestation Letter on the service list in Rulemaking (“R.”) 06-04-009. This Attestation Letter is filed pursuant to that process.

D.07-01-039 requires LSEs to include a listing of long-term financial commitments of five years or longer that they have entered into during the prior year. Furthermore, D.07-01-039 requires **additional** documentation demonstrating that LSEs have complied with the EPS. Specifically, D.07-01-039 requires LSEs to provide documentation to demonstrate:

- (a) That the commitments were not “covered procurements” under the interim EPS rule and/or
