Hi Peter,

I hope that Peter Spencer and Radu Ciupagea are already engaged with you on Flex RA and FRACMOO as I think we share similar concerns. I am sorry for my late response here. Please note I have been transitioning to a new position and am now managing ORA's Communications and Water Policy Branch. I really enjoyed working with you and Todd and hope we can occasionally touch base over cups of coffee whenever you're visiting at the Commission.

My email and phone number remains the same.

Thanks,  
Chris

**Subject:** Touch base

Hi Chris,

Now that the JRP OIR has been approved by the Commission. It looks like the proceeding will get started. I am checking with you regarding ORA's interest and involvement in the ongoing activities (Flexible RA and FRACMOO) and those that are ramping up (JRP OIR and RSI).

Attached are PG&E's comments on the CAISO's latest FRACMOO proposal. In our comments, we propose a simpler framework than the CAISO has proposed. We are hoping that it gets enough traction with the CAISO to simplify its proposal.

Are ORA's and PG&E's positions on these issues (flex RA, FRACMOO, JRP OIR, and RSI) close enough aligned to consider collaboration?

I look forward to hearing from you,

Peter
