Subject: overgeneration

Cynthia,

I hope all is well. We still need to schedule that lunch.....my fault for not following up. Maybe March 12, 13 or 14th?

Aside from the lunch, PG&E would like to arrange a briefing for Energy Division to discuss the challenge of overgeneration, when must-run generation is greater than load plus exports. This is becoming an increasing issue for us as non-dispatchable renewable resources represent an increasing share of our supply portfolio. We are in the process of developing a strategy to deal with this issue and we would like to discuss it with you.

I anticipate the meeting will last approximately one hour and was thinking the right people to invite would be you, Ed and Molly. We will coordinate with Doris to schedule the meeting, but please let me know if you think we should tell Doris to invite any other staff. It's most closely related to the LTPP and RPS cases. I'm shooting for early April.

Thanks,

Erik
