**Subject:** Great team

Good Morning,

This past week we had three days of workshops to try to develop regulatory processes that will allow us to define, acquire, and disseminate risk-based information that will support decision making and bring more focus on safety (R.13-11-006).

I just wanted to recognize the great team that PG&E brought into the workshops. It seems that PG&E is certainly leading the Cal IOUs in creating an internal system for risk based decision making. As the facilitator I very much appreciated the expertise that PG&E brought into these workshops.

The whole team starting with Shelly and Janaize gave us a very convincing showing of how we can make the process more effective and efficient.

Best Regards,

M. Zafar
