Subject: R.12-11-005 Proceeding, California Public Utilities Commission: NEM Successor Tariff Workshop Announcement, Wednesday April 23rd

To the Service List for CPUC Proceeding R.12-11-005:

The Energy Division would like to announce a public workshop regarding the NEM Successor Tariff, to be held on Wednesday April 23rd at the CPUC Auditorium in San Francisco. Remote participation will be possible.

The purpose of this workshop is to provide a public venue for interested parties to identify and discuss the highest priority issues related to the CPUC's implementation of a successor tariff to net energy metering (NEM) following [Assembly Bill \(AB\) 327](#) (Perea, 2013). This workshop will outline the expectations and schedule for designing a successor tariff, assist Energy Division staff in the creation of a NEM Alternatives Public Tool, and provide guidance for future regulatory proceeding activities related to these issues.

More information about these events can be found in the attached invitation. Further details,

including workshop agendas, will be made available on the CPUC's website at <http://www.cpuc.ca.gov/PUC/energy/DistGen/netmetering.htm> as they become available.

For planning purposes, **please RSVP for in-person or phone participation** by using Eventbrite at <http://nemsuccessorworkshop.eventbrite.com> or to Jason Perkins at jp9@cpuc.ca.gov

Thank you,

Jason Perkins
