

California Public Utilities Commission: NEM Successor Tariff Workshop Announcement

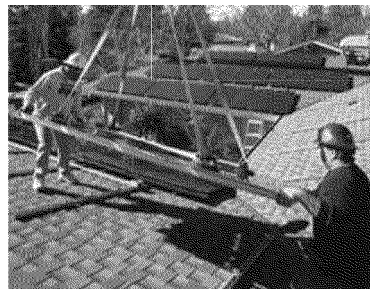

Date: April 23, 2014

Time: 9:30 AM – 4 PM [*TENTATIVE*]

Location: CPUC Auditorium

505 Van Ness Ave

San Francisco, CA 91402

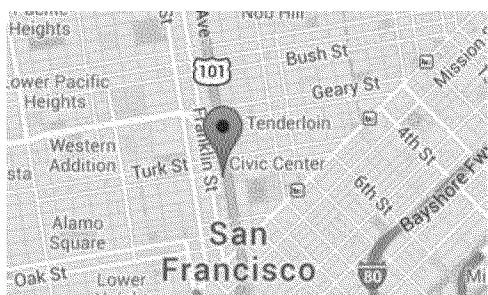

Agenda and Remote Participation Information Forthcoming on CPUC Website

RSVP: For logistical planning purposes, please RSVP for this event using Eventbrite at <http://nemsuccessorworkshop.eventbrite.com>

Contact: Ehren Seybert and Jason Perkins, Energy Division, CPUC
es2@cpuc.ca.gov and jp9@cpuc.ca.gov

- The purpose of this workshop is to provide a public venue for interested parties to identify and discuss the highest priority issues related to the CPUC's implementation of a successor tariff to net energy metering (NEM) following Assembly Bill (AB) 327 (Perea, 2013). This workshop will outline the expectations and schedule for designing a successor tariff, assist Energy Division staff in the creation of a NEM Alternatives Public Tool, and provide guidance for future regulatory proceeding activities related to these issues.
- Remote participation and a workshop agenda will be made available closer to the date of the event. Please note that this meeting will not discuss implementation or details about the other portions of the AB 327 implementation process at the CPUC (e.g. residential rate reform, distribution resources plan, the Renewable Portfolio Standard).
