

Workshop on Distribution Planning under PUC Section 769 (AB 327)

<i>Date: April 16, 2014</i> <i>Time: 10:00 am – 4 pm</i>	<i>California Public Utilities Commission</i> <i>505 Van Ness Avenue, Auditorium</i> <i>(Corner of Van Ness Avenue and McAllister Street)</i> San Francisco
---	---

As required by AB 327 (Perea), the IOUs will be filing distribution resource plans in early 2015 describing proposals to identify optimal locations for the deployment of distributed energy resources (DER). The law defines these resources to include: distributed renewable generation, energy efficiency, energy storage, electric vehicles, and demand response technologies. In addition, the DER Plans will be used to direct future distribution grid spending in General Rate Case applications. The Energy Division will host a workshop on April 16, 2014, to provide an opportunity for parties to become familiar with IOU distribution planning as it stands today, discuss the critical factors that should be included in these plans, and consider issues and next steps. Additional information will be provided at a later date. For information, please contact: Dave Erickson (je5@cpuc.ca.gov; 415-703-1226) or Jamie Ormond (jo2@cpuc.ca.gov; 415-703-1193).
