Hi Laura,

You mentioned this person when we were in Sacramento a couple of weeks ago. Turns out there are a bizillion companies named Redact Would you happen to have her contact information? Or maybe a more exact name of her company?

BTW, the big data request that I sent to you, I am planning to send to all of our gas utilities. Just trying to determine some best practices for leak management. I'm also planning to look outside Calif.

Thanks,  
Chuck
