Denise -- this is hilarious!
I understand completely.
How about if we plan to leave at 1030 then? That will work well and we can grab a sandwich somewhere in Sacramento.

Thanks
Laura

I can go earlier on Wednesday. Would that work? I have a 10:00 a.m. appointment that should not take more than fifteen minutes. Then I can be free for the rest of the day.

Does this work better for you?

This is entirely my fault. I didn't realize that Sacramento is two hours away. I thought it was more like forty minutes. We can blame the thirty years I've lived in Southern California for my unfortunate understanding of Northern California geography.

Denise

I'll be able to drive you over and back. Getting there at 2 means you won't likely see much actual work. We're trying to figure out what is best.

Thanks
Laura

I will not be able to leave the SF office until Noon. Would it be possible to push the time back enough to allow me to get from SF to Sac?

Also, I would prefer not to drive. Can we arrange to drive up and back in one car? I would be more than happy to pay my way.

Thank you,

Denise

Hello,

It doesn't look like I'll be able to make it, but Denise should still be able to attend.

Thanks,
