Subject: RE: Fresno State research on tree roots and gas pipelines

Hi Laura – I know we met last June on this topic but since it's in the news, I'd like to request any completed reports you have on the tree root encroachment topic. Please feel free to call me with any questions. Thanks,

Kenneth Bruno

**Subject:** Fresno State research on tree roots and gas pipelines

Hi Ken –

We met with Mike Robertson, Liza Malashenko and Dennis Lee on Tuesday and I mentioned that we are starting a research project with Fresno State to examine the impact of tree roots on gas pipelines.

They thought it would be good for us to brief you on it.

If you agree, let me know when might be a good time for you.

Thanks

Laura
