Subject: 10th Floor Mini-Break Update!

## 10th Floorers:

We completed our first month of our mini-break walks and would like to thank each of you who joined us in the walks, (even those who were shammed into joining us)! A special thanks also goes out to the Tariffs & Advice Letter Team (Megan's Team) for leading the walks this past month!

This month (March) the G&E Rate Ops – Electric and Gas Rate teams (Patricia and Ray's teams) will lead us in the mini-break walks. The team leading the walks will also have the

responsibility of determining and providing the weekly prize for the random drawing.

**Statistics for the Month of February** 

| Week Of | # of Participants | # of Laps | Miles Walked | Winner of Gift<br>Card |
|---------|-------------------|-----------|--------------|------------------------|
| Feb 3   | 34                | 237       | 11.85        | Redacte                |
| Feb 10  | 35                | 309       | 15.45        | a                      |
| Feb 18  | 26                | 193       | 9.65         |                        |
| Feb 24  | 34                | 301       | 15.05        |                        |

We would also like to congratulate the winners of the weekly drawing for gift card who are listed in the table above.

Collectively the 10<sup>th</sup> floor employees walked **1,040 laps** around the floor during the month of February, which is the equivalent to approximately **52 miles**! The goal for our floor is to walk the distance equivalent to walking to SDG&E Headquarters in San Diego (516 Miles via Highway I-99) by the end of the year. With 52 Miles completed, we are approximately at the I-5/I-205 Interchange, so we are on our way!

Subject: Quack for Safety 10th Floor Break

10<sup>th</sup> Floorers:

Haven't quite started that New Year's Resolution? Feeling tired and/or inactive? Now don't you fret, and don't you frown, we're going to help you get up and get refreshed!

Starting February, we are reactivating our 9:50 a.m. and 2:50 p.m. mini-breaks. Yes, this means that you will have to take a break from your busy schedule, drag yourself away from your computers, and walk with the rest of the folks on the 10th floor. Just one or two laps around the floor is great for both your physical and mental health. Recently Dr. David Agus on CNN's Fareed Zakaria GPS (Global Public Square) (1/12/14) advocated that everybody should get up every half hour and walk for four or five minutes for a healthier life. "Four or five minutes. That's it. Our body was designed to move. Your lymphatics that control your immune system have no muscle. So, it's the rhythmic contractions of the muscles in your legs when you walk that actually make your body work." (See attachment for transcript of interview). This is also our "mini-social-hour", where we get to talk to our co-workers about your latest project, your kids, pets, hobbies, sports, or the even the weather!

In the spirit of continuous improvement, we have made slight modifications to the mini-breaks:

•□□□□□□□ The duck call is gone! (As well as the hunter with the shot gun).

• □ □ □ □ □ □ □ The mini-breaks will be initiated by the various sections on the floor. Each section has been assigned a month where they will coordinate and lead the mini-break walks. It will be up to the each section to decide whether the walks will be led by an individual or by the group, and how they would like to signal the start of the walk.

| the group, and now they would like to signal the start of the walk. |  |  |  |  |
