Where: CPUC, 505 Van Ness Avenue San Francisco 94102 (Room Added: Golden Gate Room)

David –

Here's the invitation I mentioned for next week's leadership meeting at the CPUC. I know you may not be able to make it. If that's the case, we'll provide an update following.

Many thanks,
Lisa

Distinguished Public Officials and IOU Leadership:

You are cordially invited to attend a second convening of the Statewide WE&T Leadership Briefing Group – comprised of state officials and utility executives to advise on the development of a Guidance Plan for the IOUs' workforce policies and investments related to our energy efficiency and demand side management programs.

The consultant team, led by the Don Vial Center, initially convened the group on November 13, 2013. Based on the feedback from this group and others, the team developed a first draft of the Guidance Plan, which sets forth a menu of options and action steps that can help the IOUs achieve greater energy savings by ensuring the availability, deployment and support for skilled workers. In addition, the Guidance Plan advises the IOUs and the CPUC on ways to broaden the opportunities for disadvantaged workers to obtain career-track training and employment in energy efficiency work.

We would greatly appreciate having the continued benefit of your expertise and strategic vision as the consultant team refines and completes the Guidance Plan. Your feedback and recommendations will help ensure that the Plan leverages and complements other related state initiatives.

Please confirm your attendance with Cynthia Guzman (Cynthia@elpadvisors.com).

Best regards,

[Redacted]
