Subject: RE: Meeting re Risk Model & Metcalf

I checked with Ray and 9-11 on 3/25 works for him. That is next time he is in SF. I'm still tracking down dates for Metcalf. Our corporate security person is out of office but I should have options tomorrow.

Meredith,

Both dates look good, but let's make sure that it works for Ray.

I would also like a confidential brief on Metcalf. Let's set it up for me and I'll invite Denise and she can attend if she is available. The only date right now that looks bad is the 18th.

Thanks,

Liza

Hi Liza,

Would March 17 from 1-3 or March 25 from 9-11 work to meet on the risk model? We were planning to have the model available to you and some examples of risks that we have identified in Electric Ops that you could input in the model with your assumptions and also then make changes, but please let me know if you would like to take a different approach. One of the risks would be the example that we plan to use in the case study during the workshops. We could also discuss the entire process that we go through.

Also, would you be interested in a meeting on Metcalf? We could also include Denise if she would like to attend. Please let me know and I will track down some dates. Also if the dates don't work on the risk model, I will find other options.

Thanks,

Meredith
