FYI

And I am on fridge clean-out duty, too. I never use it. Like all work fridges , it's gross.

MC

This is a gentle reminder that many of us are too fond of using the "reply all" function. Taping a note on the fridge is an equally efficient way of letting those who use that particular appliance know what is going on.....

I'll help clean it, and will help try to keep it clean on an ongoing basis. I suggest that at 2pm we take everything out and leave reusable containers/food on the table for people to pick up by 4pm, then we toss everything that's left.

Subject: Saturday Power Shutoff and Refrigerator across from Rm 4200

This is a reminder that electric power to the building will be shut off all day this Saturday, March 22 in order to make repairs to the emergency power circuit.

With respect to the refrigerator located across from conference room 4200, Chloe and I are volunteering to clean it out. While neither of us use this refrigerator, we are concerned that food left in it will spoil and not only leave a mess but a terrible smell. Please help us by taking or disposing of all your items in this refrigerator by Friday, 3:00 p.m.

If you do use the refrigerator and would like to volunteer for this task, please let us know. We'd be more than happy to step-aside.

Linda
