Subject: Follow up: February 6 BIP Event Info

Dear Nick and Charlotte,

It was a pleasure meeting with you both as part of the DR Collaborative on Friday. Thank you for taking the time out of your busy schedules.

As Nick requested, I am sending you more information about the February 6 BIP event we discussed during Friday's meeting.

The attached slide was included in the meeting deck from the Wednesday PG&E Ex Parte meeting scheduled with you and Charlotte (I believe you were unable to attend after all).

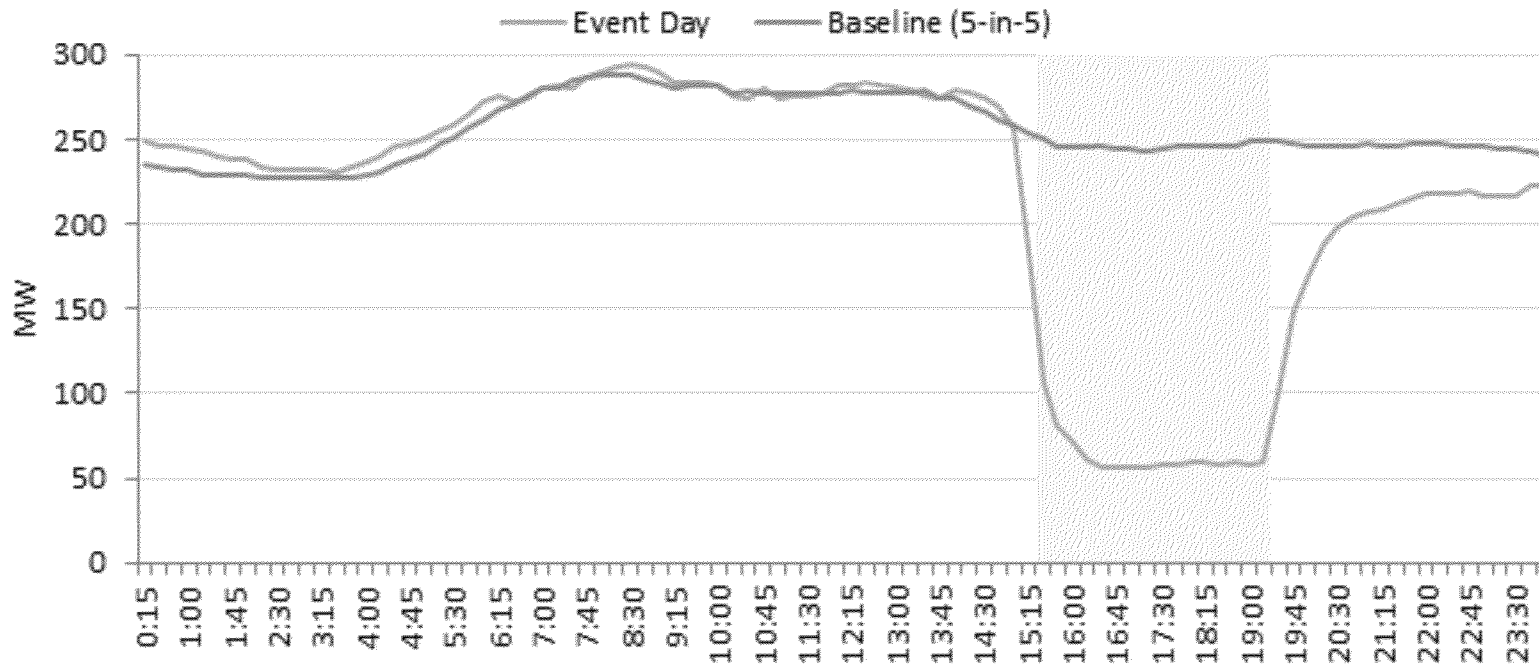

If you would like more details, we also shared a timeline of the 2/6 BIP dispatch (based on call logs) with Bruce Kaneshiro in the Energy Division. In case there are Ex parte concerns, I am not including that timeline in this e-mail communicating but wanted to let you know of it.

Best,
Alina

2/6/14 BIP Event

- PG&E's load reduction vs. forecast:

	Hour 1	Hour 2	Hour 3	Hour 4
Reduction + Est. Reduction	167	188	187	189
Forecast*	174	170	166	164

*from weekly BIP forecasts sent to PG&E Electric Transmission Grid Ops on January 30

- SCE dropped 575MW/hour during this event (more LCI customers)
- Accurate forecast (Average Reduction/Forecast - 109%)
- High customer performance
